KYNAR PVDF BASED COATINGS

These PVDF based Coatings have been specifically designed for application on Industrial facades, they offer a performance to equal or better the original finish – Polyester / Plastisol / PVDF / Urethane.

Kynar PVDF based coatings have been used worldwide for over 40 years. They have a proven life expectancy of over 25 years, even in high U.V. conditions.

Newpaintco offer a meaningful 15 year warranty for colour stability.

AIR DRYING Kynar Systems
